

REIKI & SEICHEM HEALING TRAINING – TO TEACHER LEVEL

Training from Pre Reiki to Practitioner and Teacher level. Manuals and teachings regulated with the Reiki & Seichem Association (RASA). I also can provide re-attunements for existing Reiki Practitioners so that you also have the three other Elements in Seichem.

Dates – Dates on request. 1-4 people.

Location – 2 Woodmill, Yatton, North Somerset. BS49 4QG

Training in any healing modality is firstly learning about energy, and helping yourself. In order to help others we first need to understand our Self, our own Journey and Healing; then we can learn to help others. Changes happen and you will be supported through your own Development. If you are curious, or indeed haven't as yet experienced energy healing for yourself, do get in touch.

I can provide training in Reiki and Seichem from level I to Master/Teacher. Please register your details if you would like to enrol and discuss the course content. Training manuals are provided. Reiki I is over a 2-day period, Reiki II is also 2-days with a follow up session plus case studies. Teacher/Master training is dependent upon whether you will be teaching and is usually some time after you have been practising as a Practitioner.

I have been trained in using the combined energies of Reiki and Seichem which due to my shamanic training I find much stronger. The difference between Reiki and Seichem is that Reiki practitioners are attuned to Reiki, the Earth elemental ray. Seichem practitioners are attuned to the four elemental rays: earth (Reiki), water (Sophi-El), and spirit (Angeliclight) and fire (Sakara).

I can also re-attune existing students from other forms of Reiki to incorporate the Seichem elements. Full course manuals, follows ups and support are provided.

Information on the Reiki and Seichem Association can be found [here](#).

We do cover some animal healing but I can provide specific additional training for animals if that is something you feel drawn to.
